SAP Work Experience

Projects-

1) Stryker (Jan 2019-Till Date)

Client	Stryker
Project	Stryker Accelerate
Role	Project Lead
Project Description	Stryker Corporation is a global leader in medical technologies based in U.S. The company's products are used for medical surgery and neurotechnology. The project involves end to end SAP implementation to integrate all the modules. In addition to this we have a ongoing project to upgrade HANA systems.
Contribution	Currently working as a Project leader at offshore coordinating with onshore team and responsible for the overall delivery of the project from offshore. Worked on following activities: 1. Working on Hana upgrade. 2. Created CDS views for complex requirements. 3. Coordinating with onshore and offshore team. 4. Mentoring the junior members of the team. 5. Code Review and Unit Testing. 6. Giving estimation for each change request/feasibility checks. 7. Responsible of quality of the offshore deliverable. 8. Handle timesheet, prepare billing data, Team's appraisals. 9. Stabilized process for migration project.
Environment	SAP S/4 HANA
Team Size	100 (ABAP Team Size: 25)

**2) THALES ERP/ THALES ULM/
THALES AGS (Jan 2019-Sep 2024)**

Client	Thales
Project	Thales ERP/Thales ULM/Thales AGS
Role	ABAP Developer / Team Leader/Project Lead
Project Description	Thales is a French multinational company that designs and builds electrical systems and provide services for the aerospace, defense, transportation and security markets. The project involves end to end SAP implementation to integrate all the modules. The implemented SAP landscape mainly involves SAP MM, SAP SD, SAP HR, and SAP PM. In addition to this we have a new ongoing project to migrate from ECC to HANA systems.
Contribution	Worked as a Project leader at offshore coordinated with onshore team and responsible for the overall delivery of the project. My responsibilities were to manage team and assign development objects to developers, assist them when they face technical challenges. Technically I worked on following activities: 1. Working on migration project to migrate from ECC to HANA, also developed OData services and SAP Persona flavors. 2. Developed tool for dynamic update of standard tables. 3. Enhanced TR release process 4. Coordinating with onshore and offshore team. 5. Mentoring the junior members of the team. 6. Code Review and Unit Testing. 7. Giving estimation for each change request/feasibility checks. 8. Responsible of quality of the deliverables. 9. Handle timesheet, prepare billing data, Team's appraisals. 10. Created Auto Validation Tool and executed end-to-end. 11. Created TR validation tool for non-connected systems. 12. Stabilized process for migration project
Environment	SAP ECC 7.4/ S/4 HANA
Team Size	60 (ABAP Team Size: 14)

3) Levi's (2018-2019)

Client	Levi's
Project	AMA 3PL Levi's
Role	ABAP Developer / Team Leader
Project Description	Levi's Strauss & Co. is American clothing company known worldwide for its Levi's brand of denim jeans. They are into manufacturing of The project involves end to end SAP implementation to migrate WM module to 3rd Party system. The implemented SAP landscape of Transfield will mainly involve SAP MM, SAP SD, SAP WM.

Contribution	Worked as a team leader at offshore coordinating with offshore team and responsible for the overall delivery of the project. My responsibilities are to manage team and assign development objects to developers, assist them when they face technical challenges. Technically I worked on following activities: 1. Working on CORE interfaces end to end implementation with SAP PO and IBM SI. 2. Developed tools to easy the process – for ex: IDOC cockpit monitoring dashboard, a tool which can extract all the z objects in system. 3. Coordinating with FO office team. 4. Mentoring the junior members of the team. 5. Code Review and Unit Testing. 6. Giving estimation of work for each change request. 7. Responsible of quality of the deliverable.
Environment	SAP ECC 6.0
Team Size	40 (ABAP Team Size: 8)

4) AREVA (2013-2018)

Client	AREVA Nuclear
Project	AREVA-ZETA
Role	ABAP Developer / Team Leader
Project Description	AREVA supplies advanced technology solutions for power generation with less carbon. Its expertise and unwavering insistence on safety, security, transparency and ethics are setting the standard, and its responsible development is anchored in a process of continuous improvement. The project involves end to end SAP implementation to integrate all the modules. The implemented SAP landscape of Transfield will mainly involve SAP MM, SAP SD, SAP HR, and SAP PM.
Contribution	Currently working as a team leader at onsite coordinating with offshore team and responsible for the overall delivery of monthly change request. My responsibilities is to manage team and assign development objects to developers, assist them when they face technical challenges. Technically I worked on following activities: 1. Worked on data dictionary objects. 2. Developed new ALV and interactive report programs and troubleshooting bugs. 3. Developed programs for time posting, handled end to end cats related interfaces in ABAP HR. 4. Worked on Enhancements, USER EXITS, BAPIs and BADI's based on the business requirement.
	5. Worked on ADOBE FORMS and SMART FORMS. 6. Worked on Module Pool programs include developing new screens and customizing the existing screens. 7. Worked on data migration techniques like BDCs, LSMW. 8. Worked on workflow. 9. Worked on ABAP HR. 10. Coordinating with Back-office team. 11. Mentoring the junior members of the team. 12. Code Review and Unit Testing. 13. Giving estimation of work for each change request. 14. Responsible of quality of the deliverables.

Environment	SAP ECC 6.0
Team Size	100 (ABAP Team Size: 25)

5) Mylan INC. (2012-2012)

Client	MYLAN
Project	MYLAN INC.
Role	ABAP Developer
Project Description	Mylan is one of the world's leading generics and specialty pharmaceutical company with sales in approximately 165 countries and territories.
Contribution	Worked as ABAP developer at local onsite and involved in following activities: 1. Developed Scratch Reports (Classical and interactive ALV), Smart forms, BAPI and created dynamic BDC for condition records. And Worked on User Exits, Enhancements objects, IDOCs, Standard changes. 2. Worked on scratch ADOBE form objects. 3. Extensively Used SAT for Performance Tuning of programs. 4. Planning and effort estimations for various client specific change requests. 5. Handling Incidents and deliver them as per the SLAs. 6. Designing and developing various countries interface programs, reports and layouts as per client requirement while at the same time respecting and overcoming the language and culture differences to ensure speedy and correct development. 7. Handling all the Change Request and deliver within the given time. 8. Coordinating with functional consultants and other stake holders for Unit testing and Integration testing.
Environment	SAP ECC 6.0
Team Size	150 (ABAP Team Size: 30)

6) ALLERGAN (2011-2012)

Client	ALLERGAN
Project	ALLERGAN
Role	SAP ABAP Consultant
Project Description	Allergan is a pharmaceutical company which produces branded and generic pharmaceuticals and the pharmaceuticals research and development.
Contribution	Worked as SAP ABAP Consultant. • Analysis, Designing, Coding, Testing. • Worked on Enhancement and BDC. • Worked on Reports, Smart forms and data dictionary for ABAP Modules • Involved in Regression testing. • Prepared technical specification and unit test documents for the objects I have developed.
Environment	SAP ECC 6.0
Team Size	100 (ABAP Team Size: 20)

ACADEMIC QUALIFICATIONS

- M Tech. (Master of Technology) from BITS Pilani, 2015
- BCA (Bachelor of Computer Application) from HNB Garhwal University
- 12th from CBSE Board
- 10th from CBSE Board
